The game was won on the 1st innings, 3 wickets.

This is the 3rd time Scotland has won this year.

BELIEVES JAPS ARE SUPERIOR

NEW YORK, August 27.—A cable to the Herald from Paris says: A military man of high rank, whose reputation is world-wide, has given his impressions of the general state of the Russo-Japanese campaign and its probable termination. A patriot and a sympathizer with Russia, this eminent authority declared he must bow before the evidence of facts which establish, according to him, the astonishing superiority of the Japanese in point of organization, equipment, instruction of staff, capacity of generals, utilization of ground, in artillery and the different arms and the knowledge of tactics.

According to this officer, the issue of the campaign is only too certain. In spite of the heroism of its defenders, the fall of Port Arthur is only a question of days, and General Kuro-patkin will not trust to a general decisive battle. If he is attacked, as is already announced, he will find safety only in retreat. As for the Russian fleet, its best elements are or are about to be destroyed and the Baltic fleet may be considered for the moment as a negligible quantity, and it is even doubtful whether it can ever reach the Yellow sea.

This situation is of the gravest consequence, and it is of importance to put an end to it without delay in the general interest of Europe. Japan has had the advantage in the first phase of the war, but tomorrow in the new campaign fortune may not be in her favor. The two countries, then, have every interest in concluding from today an honorable peace. The Japanese should retain Port Arthur and be protector of Korea. Manchuria should be restored to China, except Kwantung, and Russia should pay an indemnity of war.

Hard Times for Clubs.

LONDON, Aug. 20.—London's clubs are feeling the effects of the bad times. It is stated that nearly all have had an unremunerative year. The members, it appears, do not eat or drink enough to maintain the revenue at a safe pitch. Clubs are not economical; they are extravagant, in fact.

Moreover, it is admitted that club life is no longer a necessary part of existence. Life is so full and rapid in its passage from one engagement to another that men have not time for the dalliances of a club window.

Half the clubs in London are living from hand to mouth, in a managerial sense, and it is significant in proof of this that for several years there has not been an addition to the ordinary establishments of the kind in St. James. On the contrary, several have completely disappeared, and others simply are standing on the order of going.

SCHOOLS ALL OPEN WELL

Yesterday's Attendance Shows An Educational Boom.

A feeling of general satisfaction reigned in the Board of Education yesterday not only with the officials in charge but shared by the principals of the various schools who came in to report.

Miss Rose Davison, Superintendent Atkinson's efficient aide, beamed as she said: "Not one single complaint this time. Every child was seated though the attendance is on the increase. Both parents and children are contented and such a state of affairs is practically an educational millenium for Hawaii."

Much of this happy condition has been brought about by the hard work of Miss Davison during vacation in providing seats and opening up rooms, while at one school an extra teacher had to be provided.

The schools were well attended at their opening yesterday. Parents were prompt about sending their children, and the general value of education seems to be more and more fully appreciated this year than ever, though evidences of increased interest has been shown the last two years, culminating in a wave of desire to acquire merit by learning that bore down yesterday morning on the schools of Hawaii.

The increase of scholars has been universally large, parents having in many cases booked their children beforehand and on the other islands of the group conditions are believed to be the same. Kaahumanu school had 540 pupils Kailua 500 and Punchbowl, to be moved into the New Royal school in some four weeks 130. At the High school every seat was taken and every child accommodated.

Professor Woods of the Practice and Normal schools has only optimistic reports to make. Two hundred and fifty were in the Practice school from 40 to 45 in a grade, with 110 in the Normal school. What proved most encouraging was the fact that the higher classes usually more sparsely attended than the lower, had yesterday the larger proportion, a reversal of the usual order of things that shows that the pupils are coming to these school more fully prepared than before and that school work generally is improving with the growing desire for education. This last condition is marked among the Portuguese, hitherto somewhat delinquent as to the advantage of learning.

The Royal school opened yesterday with a full attendance. Mr. True, of Pearl City, who has had a wide experience in the schools of San Francisco and Miss Bint, an island teacher, have been added to the staff. Mrs. Alice Brown, well known in musical circles here, will have charge of the music.

Mr. Low, who has charge of the school in the absence of Mr. Mackintosh, has added an apary to the manual department where the boys will be taught the culture of bees. The teachers speak highly of the excellent work which is being done by the contractor on the new building. The Royal school will have an attendance of about a thousand pupils by the first of next year.

WOMAN'S BOARD'S NEW ERA BEGINS

The opening session of a new year and of a second third of a century's work was held by the Woman's Board of Missions in the lecture room of Central Union church on Tuesday, Sept. 6, at 2:30 p. m.

A new president comes with the new era in the Board's life, a new plan of mission study, and in anticipation a newly revised constitution.

The Board is favored in being able to add to its list of few but able presidents Mrs. Doremus Scudder.

The new study is "Rex Christus, an outline study of China;" the division topic for the month "The Self-entered Empire," and five very brief papers were contributed on the subject, Mrs. D. L. Withington being chairman of the circle of readers.

Reports of Chinese and Portuguese work were given at this session.

The changes which thirty-three years have made necessary in the work of the Board have also made advisable a revision of the original constitution, and members of the society were requested to bring with them to the meeting for reference, their annual reports, which include the constitution.

Wampole's Preparations quickly expel the impurities and disease-germs from the blood and furnish what the body needs to make it strong and

GRISELDA'S RECITAL

Few Were There But All Were Charmed By Her Voice.

An interesting concert was given last night in the seaward pavilion of the Young Hotel roof garden by Madame Fried-Griseida, a singer of Californian origin who has but lately returned from a successful tour of the Orient.

The program, artistically a success, was listened to by but few, and should on its merits, and the rendition of Madame Griseida, have attracted a far larger gathering. The soloist proved to be the possessor of a sweet soprano, perfectly trained and under excellent control. Her voice is well worth listening to and merited much more of an audience than the sparsely covered seats of last night's house. It is undoubtedly disheartening to the bravest soloist that ever sang even for sheer love of her art to appear before a limited audience, after having sung to crowded benches under the patronage of the highest in the land as Madame Griseida undoubtedly has in India, and it is to be hoped that a second concert may be given at which Honolulu music lovers will realize the present excellent artist they have amongst them and turn out in force to what will surely prove a most enjoyable evening.

The program given below gave scope for much range of expression and trial of technique ranging from Brahms to MacDowell, and its various numbers were rendered sympathetically and, where needed, dramatically by Madame Griseida. The audience were cordially appreciative of the quality of the concert they were enjoying and expressed their approbation by applause and floral tributes.

Perhaps the most effectively rendered numbers were Ardit's Valse Brillante, Foote's "I'm Wearing Awa" and the aria from Saint Saens' Samson and Delila. As a final encore the singer rendered Annie Laurie with much conserved feeling. After the concert Madame Griseida was freely thanked and expressions of the hopes of another concert were rife.

The accompaniment of Mrs. Whitney added in no small degree to the pleasure and general success of the evening. Mr. Karl Busch, a gentleman little heard as yet on local concert platforms, played a violin obligato to the Bach-Gounod "Ave Maria." The full program was as follows:

PART I.

1. "Still wie die Nacht".....Carl Bohm
2. (a) "Thy Beaming Eyes" Opus 40 No. 3.....MacDowell
(b) "A Folk Song".....Clutsam
3. "Ave Maria".....Bach-Gounod
(With violin obligato by Mr. Karl Busch.)
4. "Ich Liebe Dich" Opus 29, No. 3.....Intermission.....Forster

PART II.

1. "Grand Aria from Samson et Delila".....Saint-Saens
2. (a) "I'm Wearing Awa" Op. 13, No. 2.....A. Foote
(b) "Love is a Bubble".....Francis Alliston
3. (a) "Ich Schleich umher".....Brahms
(b) "Die Schone Blume".....Vander Stucken
4. "L'Estasi Valse Brillante".....Luigi Arditi
ALLAN DUNN.

DRAGOMIROFF CRITICISES NEWS

ST. PETERSBURG, Aug. 30, 12:23 p. m.—General Dragomiroff, the former Governor-General of Keif, and authority on military matters, devotes a long article published in a military magazine today to the exaggerations of the war, ridiculing the marvelous tales of Japanese exploits, in scaling precipitous heights and saying that the imagination of some of the Russian correspondents is apparently running riot. He refers to one correspondent, who describes the Cossacks' lances and swords as being blunted on shirts of mail worn by Japanese officers and quotes another who described the Japanese as transporting dummies which were used to distract the Russian fire. The General mentions a third correspondent who said the Japanese gunners carried a map of the whole of Manchuria with every range marked on it.

General Dragomiroff, who himself is a partisan of the bayonet, takes issue with the assertions that the Japanese have a distaste for this weapon, declaring that the Japanese evidently understood its use better than the Russians, knowing the folly of rushing at an enemy from a long distance without preliminary fire. He says the Japanese of the past were accustomed to cold steel and produced some famous swordsmen and sword-makers.
